

Our First (and second) Website

In todays standards its not that pretty. We get that. But back in 1998 we thought it was pretty cool. Nowhere to go but up, right?

1st Site Built
Date: November 1998
Site Type: Insurance Company
Built Using: NetObjects Fusion 3.0
Graphics Program: MS Paint

Our second site was a huge improvement, but let's remember this was built in from 1999 to early 2000. Check out those navigation tabs at the top. Apple used them as well back then and look at their site now. Anyway here is site #2.
